

MARKS:
 - lines corresponding to buses
channels:
 - map positioning
 - luminance of 2 selected bus routes

map
for geographic exploration

marks: map + lines ; Channels: color, luminance, geographic coordinates

Histograms of wait times
for buses of selected routes

(Note: this will require repeated visits to same stop).

Marks: rectangles

Channels: color, (time x , frequency y)

direct comparison
exponential distribution
marks: rectangles lines
channels: color, luminance (time x , frequency y ; time x , probability y)

(time x , frequency y ; time x , probability y)
